USER MANUAL

SF1 STEREO GAMING HEADSET FOR XBOX ONE™

USER MANUAL

Thank you for purchasing the Sparkfox SF1 Stereo Gaming Headset. The SF1 offers premium audio, crystal-clear chat and is designed for use on the Xbox One™, PlayStation®4, Nintendo Switch™, PC, MAC and mobile devices (With 3.5MM, 4-pole connections).

VOLUME AND MUTE

1. The volume is adjusted by turning the wheel on the in-line control unit. ②
2. The mute switch can be turned off/on on the in-line control unit. ②

NOTE: For safety, Please turn the volume down on the headset before connecting to a device.

SETUP

NOTE: We recommend updating the firmware of the controller to the latest version before setting up the headset.

Please follow the setup instructions shown below:

Xbox One™

Simply plug the headset into the headset port on the controller.

Note: Older Xbox One Controllers without a headset port will require the Xbox Headset Adapter that is sold separately.

PlayStation®4

From the PS4 home screen, go to "Settings" > "Devices" > "Audio Devices" > "Output to headphones" and select "All Audio"

Nintendo Switch™

Simply plug into the headset port on the Switch Tablet.

Note: Chat is only available for games that support in-game chat

PC/MAC®

If the PC has a 4-pole 3.5mm jack then plug the headset into the jack and then configure the audio and mic settings in the system software (audio/microphone settings)

Note: Some computers will require a PC Y splitter to add microphone support (Sold Separately)

Mobile

Simply connect the headset to the 3.5mm port on your mobile device. The headset will automatically be detected.
